

[www.rittal.us](http://www.rittal.us)

- Reduce overall operational cost, optimize your workflow
- Create flexible, scalable, and efficiency in your operation
- Highest quality enclosures and equipment that provide cost value
- Automated operational excellence eliminates scrap, finished quality issues, and lowers revision rates
- Reduce your time to market
- Local manufacturing, global footprint

If you are looking for operational scalability and sustained business growth, there is only One Solution.

**Rittal Value Chain.** From the first interaction to the final, fitted bolt, our enclosures are highly engineered to deliver greater modification efficiency and accessibility. We are experts at optimizing

shop floor procedures and workflows. Regardless of the customer challenge, we can help you deliver. From virtual prototyping to enclosure modification and assembly, Rittal can increase the speed of your business and the strength of your bottom line.
